## **Governor's Innovative Grant 2008-2009**

Thank you for applying for the Governor's Innovative Grants. I appreciate the work of educators across the state that search for creative and unique teaching methods to inspire children and create life-long learners.

I am forever grateful to the many teachers I have had in my life. As an educator, my wife Lori can attest to the rewards that come from teaching. I am proud of her accomplishments as an educator. We appreciate your dedication to Idaho's youth. Your service is creating generations of Idahoans who value and succeed in education, and in life.

I invite you to create a plan for a project or learning experience that will provide further depth to your students' education. Great success often is found by thinking "outside the box" and by becoming truly innovative in teaching strategies and creating learning opportunities for all students.

Grants will be up to \$1000, depending on the cost of the project. Grantees will be required to complete a report on their project. These reports will be posted on the First Lady's website, along with the State Board of Education's website, so these innovative ideas can be shared with educators across the state. Each grantee will be required to submit a synopsis of their project. The State Board of Education and I will highlight projects throughout the year.

Once again, thank you for your dedication, time and talent as you continue enlightening and empowering the students of Idaho. I look forward to seeing your grant application and watching the magic these grants will create in Idaho's classrooms.

As Always – Idaho, "Esto Perpetua"
